Canadian Addressing Guide

Canadian Addressing Guide

Canada Post's computerized systems can decipher a wide range of addressing styles -- from handwritten notation to typed and printed labels, but studies show that a consistent approach to mail addressing leads to more efficient handling. For our customers, large and small, this translates into better service and lower costs. Consistent and accurate addressing eliminates the need for extra handling, and/or redelivery by Canada Post. Standardized addressing ensures that mail is consistently "delivered on time, the first time, every time."

The Canadian Addressing Guide **promotes the most technologically efficient formats for addressing, however it does not limit mailers to any one format. In some cases, because of individual preference or other considerations, mailers may not be able to follow the formats that this Guide presents.**

Canada Post encourages all mailers to respect the wishes of customers in matters of format. *The Canadian Addressing Guide* **has taken care to accommodate the requirements of the English and French languages by recognizing and accepting the use of upper and lower case characters, including accents, as well as the full spelling of and punctuation between addressing elements.**

For more technical information on the physical characteristics necessary for effective processing by Canada Post's automated systems, see the *Canada Postal Standards Manual***, which may be acquired through a Canada Post Sales Representative.**

General Information

- **Addresses should be upper case; however, mailers may wish to use lower case due to individual preference or other considerations.**
- **All lines of an address should be formatted with a uniform left margin.**
- **Punctuation should not be used unless it is part of a proper name, (ST. JOHN'S). However, mailers may wish to use punctuation due to individual preference or other considerations.**
- **Accents are considered to be an integral part of language and are not considered to be punctuation.**
- **Return addresses should be formatted in the same fashion as the destination address, and located in the top-left corner of the mail piece, clearly separated from the destination address, or on the back of the mail piece at the top.**
- **Postal codes must be printed in upper case with the first three elements separated from the last three by one space (no hyphens).**
- **The # symbol or the French equivalant, nº, must never be used as part of the address.**
- **Non-proportional fonts (characters which occupy the same width) only should be used (ex.: OCR B, Letter Gothic, Elite, Lotus Line-Draw, MS Line Draw, Courier, Courier New, Pica, Copy Pica).**
- **Addresses must be less than 40 characters per line, including spaces.**
- **All characters must be larger than 2mm and smaller than 5mm from the top to bottom (10 to 12 point). Return addresses may use smaller characters and must not be larger than the destination address.**
- **The municipality, province and postal code should always appear on the same line.**
- **Space between address lines must be at least 0.5mm but no more than one blank line between lines of addressing.**
- **Characters in the address block must not be underlined.**

Civic Addresses (Street Address)

*When a **Civic Number Suffix** is present, there is no space when it is alpha (140A), and there is one space when it is a fraction (123 1/2).*

*The **Street Name** is the official name recognized by each municipality and cannot be translated. (Ex.: Main is not Principale.)*
There is no space between a numerical street name with an ordinal, or an alphanumeric character. (Ex.: 2ND ST 36A ST)
When the street name is numeric, there is only a space (no hyphen) between the civic number and the street name. (Ex.: 123 22ND AVE)

*The **Street Type** is provided by the municipality. Common abbrevia - tions should be used. See "Street Types" for a complete list. In some instances, the street type is also the street name (THE PARKWAY).*

The only street types that may be translated are:

ST	=	*RUE*
AVE	=	*AV*
BLVD	=	*BOUL*

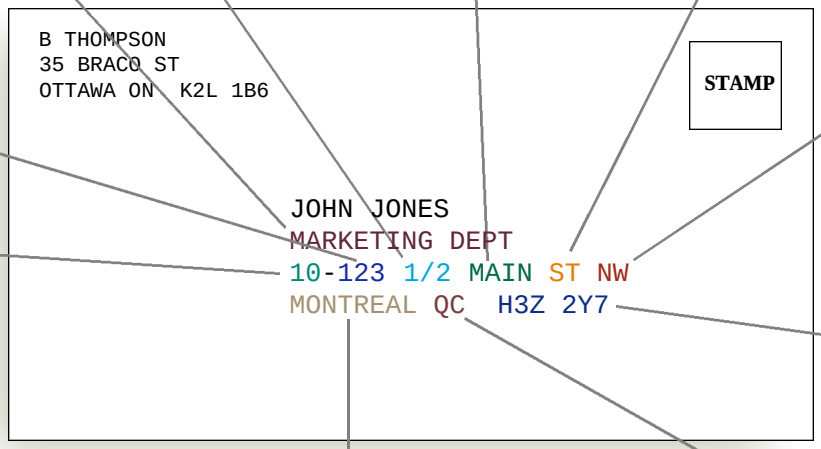
A French street type is placed before the street name, unless it is ordinal (1re, 2e) or cardinal (PREMIÈRE, DEUXIÈME).

***Additional Delivery Information** is optional data that a mailer wishes to include, i.e. Attention line, title, floor, etc. It is always placed above the civic address.*

*The **Civic Number** is the official number assigned to an address by the municipality.*

*The **Street Direction** uses the common one- or two-letter abbreviation.*

See "Street Directions" for a complete list.



*A **Unit Number** is placed before the civic number with a hyphen between, OR after the street type, using an acceptable unit identifier (ex. APT 10). See "Unit Designators" for a list.*

The unit information may be placed on the line above the street information if space is an issue.

*The **Postal Code** must be in upper case and placed two spaces to the right of the province with one space between the first three and last three characters.*

*The official **Municipality** name, as provided to Canada Post, the official abbreviation of the municipality, or an official alternate name, must be used and cannot be translated.(Ex.: TROIS-RIVIÈRES is not THREE RIVERS.)*

*The **Province** should always be presented using the recognized two-digit symbol. See "Province and Territory Symbols" section for a complete listing. Mailers may wish to have the province written in full and placed in brackets. Ex.: (Québec)*

***NOTE:** Canada Post encourages all mailers to respect the wishes of customers in matters of format.* **The Canadian Addressing Guide** *has taken care to accommodate the requirements of the English and French languages by recognizing and accepting the use of upper and lower case characters, including accents, as well as the full spelling of and punctuation between addressing elements.*

Post Office Box Addresses

Additional Delivery Information *is optional data that a mailer wishes to include, i.e. Attention line, title, floor, municipal address, etc. It is always placed above the post office box address.*

Station Information *must be present to direct mail to the proper postal installation when there is more than one installation within a municipality.*

Station = STN
Retail Postal Outlet = RPO

The ***Post Office Box number*** *must always be placed on the line just above the municipality, province and postal code.*

The # symbol or the French equivalant, nº, must not be used. Punctuation should not be used.

International Addresses

- **For mail addressed outside of Canada and the U.S.A., Canada Post's mechanized equipment reads only the name of the country. Therefore, the country name must be spelled correctly.**

  See "Country Names" for a complete listing and spellings.

- **The name of the country must be the last entry on the address. It is placed at the bottom, below the municipality/city name and any postal code/zip code information.**

- **The name of the country must be spelled in full.**
